KWC BEVO E

Lightness in form and function

The KWC BEVO E fascinates with its slim silhouette and elegant transitions and is made of hygienic stainless steel. The characteristic asymmetrical spout is an outstanding design element. The double-shell design of the shower models ensures extra safety. It protects against burns. No matter how hot the water flows, the outside of the KWC BEVO E shower head remains cool. The new KWC BEVO E Hybrid is an innovative addition to the existing KWC BEVO E line: it combines timeless design with modern sensor technology and sets new standards in the kitchen.

Touchless hygiene and convenience. Thanks to sensor control, the KWC BEVO E Hybrid enables touchless activation and automatic stopping of the water flow - for more cleanliness and hygiene in everyday kitchen life.

The sensor control of the BEVO E Hybrid ensures touch-free activation and automatic stopping of the water flow - ideal for enhanced hygiene in the kitchen.

**Kitchen**

Lever mixer

– Swivel spout 150°

KWC-Nr.**10.531.022.751FL**

industrial black, A215

10.531.022.700FL

Stainless steel, A215

Flow rate 10.3 l/min (3 bar)

**Kitchen**

Lever mixer

– Pull-out aerator up to 700 mm

– Swivel spout 120°

– EasyLock

– TouchProtect

KWC-Nr.**10.531.112.751FL**

industrial black, A220

10.531.112.700FL

Stainless steel, A220

Flow rate 5.4 l/min (3 bar)

**Kitchen**

Lever mixer

– Pull-out spray up to 700mm

– SprayClean

– PowerClean

– Swivel spout 120°

– EasyLock

KWC-Nr.**10.531.032.751FL**

industrial black, A220

10.531.032.700FL

Stainless steel, A220

Flow rate

Normal spray 7.2 l/min (3 bar)

Flow rate

Needle spray 7.1 l/min (3 bar)

**Kitchen**

Lever mixer

– Swivel spout 150°

Stainless steel, A225, Battery

OptimalSpace

Practical yet elegant ergonomic design: OptimalSpace features long, tall spouts that provide ample space for washing and or working.

TouchProtect

Safe to use: An insulated hot water guidance system with a “double skin” principle means the body of the faucet or the pull-out spray can become warm but never hot. In this way, TouchProtect intelligently prevents scalding.

DesignSpray

Elegant design and functionality: With DesignSpray, the pull-out spray is seamlessly integrated and recessed. It can be easily extended with just one finger.

HybridControl

Touchless operation and flexible control: Allows touchless activation of cold water via a sensor, as well as manual mixing of hot and cold water using the lever. Cutting-edge technology for intuitive handling and versatile applications.

The ultimate
choice
