

KWC

KWC
LUNA E

A REAL ALL-ROUNDER

KWC LUNA E cuts a fine figure across the board with its simple design and intelligent functionality. But that's not all: with its comprehensive range, there is sure to be an elegant solution for every application in stock. Even front window solutions and soap dispensers can be included. KWC LUNA E – the popular all-round carefree faucet.

KWC LUNA E is available in three different looks: chrome or stainless steel for those who like a touch of exclusive shine, and matt black for those who prefer to make a subtler statement.

KWC +

OptimalSpace

Practical yet elegant ergonomic design: OptimalSpace features long, tall spouts that provide ample space for washing and or working.

SprayClean

Actively helps with the removal of limescale: With a special faceplate and fastening mechanism, SprayClean prevents limescale buildup. Any deposits are sprayed away automatically when the water is running. The special fastening mechanism helps with more stubborn lime deposits: simply turn, clean, and the job is done.

SprayLock

Adjust the flow: With SprayLock, you can keep the jet of water from your faucet flowing exactly how you want, even when the water is shut off. When you turn the water back on, the water flows in the same way again.

PowerClean

The spray you want at the touch of a button: PowerClean makes it exceedingly easy to switch the flow of water on the spray head – from a standard spray to a fine needle spray.

HealthProtect

Better hygiene and unchanged water quality: HealthProtect highlights the strict standards we set ourselves to ensure that our faucets do not affect the taste and smell of your water – that is why we use high-quality materials (metals, plastics) that are ideally suited for contact with water.

GlacierFinish

Robust surfaces and high-quality craftsmanship: GlacierFinish is equipped with durable surfaces that are exceptionally robust and feature an attractive polished shine that you can enjoy for years to come.

PrecisionMove

Exceptional elegance and precision: Precision-Move allows for seamless movements and exceptional convenience thanks to our consistent use of top-quality materials and superior craftsmanship.

EasyLock

A spray that is easy to use and automatically snaps into place: EasyLock is equipped with special positioning pins that ensure that the pull-out spray is always in the right position.

QuickConnect

Easy installation and more safety in the kitchen: with QuickConnect, there is no need to screw on the spray head hose, which means there is also no risk of damaging the seal and causing water damage.

SwivelStop

Stop the faucet from moving too far and prevent water damage: SwivelStop allows the swivel range to be adjusted from 360° to 120° or 150° in just a few steps, ensuring that the water only flows into the sink.

QuickInstallation

Hassle-free positioning and fastening of the threaded connection for quick and easy installation: the locking nut is screwed into place by hand to hold the faucet in position using QuickInstallation, before it is fixed in place via the two locking screws.
