

**KWC** BROCCA

# Radial purism

The compact KWC BROCCA wall-mounted shower head offers a comfortable shower experience - the perfect combination of a shower jet with a gentle rain effect and efficient consumption.

- **Restrained clarity**

With its slim silhouette and reduced form, the KWC BROCCA embodies a discreet aesthetic.

- **Striking colour variants**

Three high-quality materials give the bathroom an unmistakable touch: purist elegance in brushed stainless steel, modern industrial style in matt black or timeless brilliance in chromeline.

- **Functionally refined**

Thanks to the easy installation and the choice between round or rectangular escutcheons, the spray head fits seamlessly into any bathroom environment.
